REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:
Claims 1-17 have been carefully reconsidered in view of applicant's argument filed on Dec. 01, 2004. The Japanese Publication No. JP07308087A fails to teach or suggest a diode rectifying unit rectifying power supplied from an AC power supplying unit, and a relaying unit including a first node to connect the dynamic braking circuit to the resistor and a second node connecting the rectifying unit to the capacitor in parallel as recited in the claims. See figure 2 of the invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
